

K-State Vegetable Research Field Day

K-State Olathe Horticulture Research and Extension Center

35230 W. 135th Street, Olathe, KS 66061

August 15, 2016, 4:00-7:00 pm

Come and find out what kind of research is being done at the K-State Olathe Horticulture Research and Extension Center during the **Vegetable Research Field Day**. Bring your walking shoes for this workshop as it will include a detailed field tour of all of our research projects related to: vegetable grafting, organic sweet potato slip production, high tunnels, produce quality and shelf life, cultivar evaluation, cover cropping strategies, and no-till and minimum tillage systems. Crops being grown include: tomatoes, sweet potatoes, sweet potato slips, bell peppers, blueberries, pumpkins, cantaloupe, and other mixed plantings. We will also be displaying our mobile produce cooler and discussing considerations for building your own. Refreshments will be provided during the tour.

This workshop is being brought to you by the Growing Growers program. Cost to attend this workshop is \$15. To register, fill out the form below and mail with payment by Aug 8 (Walk-ins are welcome). If you have questions, or for further information, contact Kimberly Oxley at koxley@ksu.edu.
