

Links to Video Clips on Careers in Horticulture

Sub-Module: Careers in Horticulture

Former undergraduate student, Renata Goossen: Why she chose horticulture.

https://www.youtube.com/watch?v=oywy64N_5dQ

In this video, Renata Goossen shares her story and how she chose the horticulture program.

Golf Course Turfgrass: This is my office. (1:21)

<https://www.youtube.com/watch?v=m08oawPns3E&t=12s>

In this video, several golf course and sports turf alumni share their 'office', program highlights, and showcase the opportunities in the profession.

The Future of Farming (12:28)

<https://www.youtube.com/watch?v=Qmla9NLFbVU>

A general overview of the future of agriculture and applications of technology, including drones, robotics, and automation. The focus is more agronomy-focused, but the applications apply and will apply to horticulture and plant science related careers.

Seed Your Future Webpage

<https://www.seedyourfuture.org/careers>

On this site, one can find an extensive list of careers, over 85, which are horticulture or plant science related. Individual career pages provide a short video clip of a professional in that field.

National Association of Landscape Professionals Webpage

<https://www.landscapeindustrycareers.org/discover-the-industry/career-paths/>

This site provides information on 16 different career pathways available to people interested in horticulture careers, especially those careers related to landscape horticulture. Individual opportunities also provide a short video of a professional in the field.
